

# M1-S

LIVE PERFORMANCE DYNAMIC  
MICROPHONE WITH LOCKABLE SWITCH

The M1-S is a rock-solid dynamic microphone that is designed for live vocals. Featuring a high-power neodymium capsule, it delivers a warm, detailed response with incredible clarity. Its tightly controlled cardioid polar pattern minimises spill and feedback, and its precision-engineered internal design almost completely eliminates handling noise.

The M1-S features an integrated switch for added flexibility in presenting situations, and can be fixed in position via an integrated locking screw. Backed by a lifetime warranty, the M1-S is renowned as an industry-standard live vocal microphone that is built to withstand the rigours of the stage and the road,

- Live performance dynamic microphone for vocals
- High-power neodymium capsule
- Tightly controlled cardioid polar pattern
- Robust, all-metal body
- Integrated on/off switch with locking screw
- Lifetime warranty
