

CR SERIES

STUDIO MONITORS

YOUR

WORK + PLAY

SPEAKERS

Mackie Creative Reference Powered Studio Monitors with Bluetooth® combine professional-quality sound with a tone shaping knob for moving from studio reference to casual listening to party mode. Featuring a selection of inputs, Bluetooth® and switchable desktop and bookshelf modes, CR Studio Monitors may be the only speakers you ever need.

FEATURES

TONE CONTROL

Use the tone control knob to shape the sound, starting with the transparent response you expect from studio monitors. Turn the knob to gradually boost the bass and add high-end sparkle, perfect for using CR Series Studio Monitors as immersive gaming speakers, casual listening speakers or all-out party speakers.

LOCATION SWITCH

Flip the location switch between desktop speaker mode and bookshelf speaker mode to optimize CR Series Studio Monitors for wherever you place them. Use desktop mode for listening up close (like in the studio) and bookshelf mode for listening at a distance (like from the couch).

AVAILABLE WITH BLUETOOTH®

Pair smartphones, laptops and other Bluetooth® devices for studio-quality sound you can stream wirelessly.
