

WHICH STAND SUITS YOUR WORKFLOW?

Product Overview

DS1 Desktop Microphone Stand

The DS1 is a super solid and stable microphone stand that allows for variable vertical height for quick and simple repositioning on a desk.

DS2 Desktop Studio Arm

The DS2 is a compact desktop studio mount with an articulating arm that allows for quick and flexible positioning of microphones and other accessories up to 950g.

DS3 Premium Desktop Studio Arm

The DS3 builds on the DS2 with an improved carry load (up to 1.5kg), full 360-degree articulation with the ball-head mount, and other premium details that make it extremely versatile.

PSA1 Professional Studio Arm

The original studio boom arm, perfect for mounting microphones and other accessories in more permanent setups where you want quick and simple readjustment.

PSA1+ Professional Studio Arm

The PSA1+ builds on the core formula of the PSA1 by increasing the supported weight range, further dampening the springs for smooth and silent operation, and other premium components.

LPA1 Professional Low Profile Studio Arm

The LPA1 is a professional low profile studio arm designed to maintain all the flexibility of our other studio arms, whilst keeping a low profile to remain out of shot for content creators and video podcasters.
